Other tips and relevant information	
Other tips/relevant information	<p>Be prepared for the variable standard of accommodation in communities. A sleeping bag sheet insert is a good idea for protection against biting insects.</p> <p>Whenever possible, avoid being on the road from dusk till dawn. Apart from the unfenced cattle station, the region has a population of feral horses, donkeys, dogs and the occasional camel along with a native population of Kangaroos and Dingoes. All of which are a significant road hazard.</p> <p>On arrival, please check with the Health Centre to understand any health or social issues within the community. They can also let you know of any sacred sites to avoid.</p>
